## Binge Worthy

Beth Krupa creates a stylish media room for some serious movie viewing or a Netflix bender.

The scene is set for this beautiful and highly functional media lounge when you descend dramatic marble stairs by Antolini. Krupa makes sure everyone is comfortable on an expansive modular sofa with three-level seating. The perch is particularly luxe swathed in lush velvet from Holly Hunt. Underfoot, the Stark carpet complements both the color and sumptuousness of the upholstery. The importance of acoustical treatments in a residential media room can't be overstated, says Krupa. Any audio system, regardless of quality and cost, can be rendered boomy and unintelligible without proper treatment. Artnovion's Sahara W Absorber panels are a good-looking, functional enhancement. Now all you need to add is the popcorn!
