LOCAL'S CHOICE

THE RESULTS ARE IN! In February we gave our readers a very important task – share their love for our community's many wonderful businesses. Thousands in our community voted in our Inaugural Local Love Awards, and we were astounded by the community support. Greenwich is a desirable destination for many and that is because of the people and places that make up our town. Congratulations to the winners, they've earned the community's trust through good business practices, consistent service, great communication and high-quality results in their respective fields. Read on to learn more and find a few new businesses to support this year.

Our love for authentic brought us on a globe-trekking search through the forests of Asia to the deepest jungles of South America. There, we discovered the special blend that has quickly become our calling card. Unlike other cafes or packaged roasts, our beans are unique to us. High quality and rich in flavor-- every single one is carefully selected by experts to ensure only the finest bean makes it into your coffee cup.

We have been on Greenwich Avenue since 2012, offering a true break from generic, similar-tasting drinks by delivering professionally brewed coffee from our daily roasted beans, for a truly memorable experience that will leave you with an invigorated and uplifted feeling.
