TOP TIPS ON USING ART TO TRANSFORM YOUR SPACE
CREATING YOUR IDEAL HOME

ARTICLE BY BETH KRUPA INTERIORS

color inspiration

Let art inspire your palette. Artwork acts as a jumping off point for everything, from the feel of the room to the colors and textures used to pull everything together. Tailor art to the room's feeling. Serene and calming art might be suitable for a bedroom, while vibrant and energetic pieces can work well in a breakfast room or hallway.

make it personal

Tell a story with your art by choosing pieces that have personal meaning or connect in theme. This adds depth and significance to the overall design. When sourcing art for a client, we take a very personalized approach. Designing a space that not only looks beautiful but creates a symbiotic relationship between the homeowner and their environment.

A joint collaboration with a graffiti artist, this artwork brightens up an otherwise plain wall. Art by Suzann Kaltbaum. Photography by Modern Media LLC

keep it fresh

Don't be afraid to mix different art styles within the same space. This can create visual interest and make the room feel curated and individual. Consider keeping things fresh by rotating your artwork seasonally. This allows you to showcase different pieces throughout the year, keeping your home decor dynamic and engaging.
